## **Silver Predator Corp. and White Pine Precious Metals Inc. Announce Signing of Definitive Purchase Agreement for the Taylor Silver Property**

**Vancouver, British Columbia, November 23, 2022: Silver Predator Corp. (TSXV: SPD) (“Silver Predator”) and White Pine Precious Metals Inc. (“WPPM”),** a privately held Ontario-based company, jointly announce the signing of a Definitive Purchase Agreement (the **“Purchase Agreement”**) for White Pine Precious Metals Inc. to acquire from Silver Predator a series of certain mining claims located in White Pine County in the State of Nevada, commonly referred to as the Taylor Silver Property (the **“Property”**). The Purchase Agreement was signed after market hours on November 22, 2022.

The principal terms of the Purchase Agreement are a payment of \$25,000 USD immediately upon the signing of the Purchase Agreement, followed by a payment of \$850,000 USD by January 20, 2023 (the **“Closing Date”**), with an additional \$875,000 USD payment 18 months following the Closing Date. In addition, Silver Predator will receive upon the Closing Date 5% of the issued and outstanding common shares of WPPM on a basic, non-diluted basis until WPPM reaches an equity capitalization of \$5 million USD, with certain standard exceptions or until the occurrence of a qualifying liquidity event for WPPM.

“We are delighted to sell our now fully-matured interest in the Taylor property and to become an equity partner with White Pine Precious Metals,” said Dr. John T. (“Terry”) Rickard, CEO of Silver Predator. “This will provide the means for us to begin exploration activities on our flagship Copper King property in Shoshone County, Idaho, next year, and enable us to participate in the future prospects of White Pine Precious Metals.”

Mr. John Antwi, Co-Founder and Director of WPPM, commented: *“The acquisition of the Taylor Project is very strategic for the White Pine Precious Metals team. It is indeed a golden opportunity in a historic silver district that shows significant potential for a Carlin-type gold system. The Taylor project presents near-term value drivers in a target-rich geologic environment, which is very familiar to our team of experienced Carlin-type geologists who are poised to add value to the project. We will be providing updates in the coming months on our exploration plan and certain key milestones for the corporation”.*

“Proceeds from the Taylor transaction are staged within a time frame that allows Silver Predator to plan and execute a summer drill program at Copper King in 2023,” notes Nathan (“Nate”) Tewalt, Chairman of Silver Predator. “Our geologic model for Copper King, based on local and regional work, suggests the potential for both bedded and vein style silver-copper targets on claims that are 3 to 5 kilometers north of Hecla’s Lucky Friday underground silver-lead-zinc mine.”

This Purchase Agreement has been approved by the Silver Predator Board of Directors and is subject to TSXV approval.

*This news release does not constitute an offer to sell or a solicitation of an offer to buy the WPPM common shares described herein in the United States or in any other jurisdiction, nor shall there be any sale of the common shares in any state in which such offer, solicitation or sale would be unlawful. The common shares have not been and will not be registered under the U.S. Securities Act, or any state securities laws, and accordingly, may not be offered or sold in the United States except in compliance with the registration requirements of the U.S. Securities Act and applicable state securities requirements or pursuant to exemptions therefrom.*

**Silver Predator Corp.**

Silver Predator is a mining exploration company, with properties in the western US. In addition to the Taylor Silver Project, the Company holds the Copper King project, located in the eastern portion of the famous Coeur d’ Alene Silver District near Mullan, Idaho, and the Cordero and Cornucopia properties in Nevada.

**White Pine Precious Metals**

White Pine Precious Metals is a new private mineral resource company formed and led by experienced mining and exploration executives with headquarters in Reno, Nevada, USA. The Company is in the process of closing a transaction to purchase the Taylor Project. Upon transaction closing, the company is planning to review the unaccounted gold resources and rescope the project to identify additional gold targets in the district.
